

FREE Nitrate Water Testing Clinic

The Douglas County Soil and Water District (SWCD) in cooperation with the Minnesota Department of Agriculture (MDA) will offer a free nitrate water testing clinic at the Douglas County Fairgrounds during the fair from **10:30 a.m. – 6:00 p.m. on Thursday, August 18th and Friday, August 19th.**

To participate, bring at least one cup of water in preferably a clean plastic or glass container. For a good sample, allow the tap to run at least five minutes before filling the container. Samples should be taken no more than 24 hours before the testing and must be kept refrigerated until the clinic.

Samples will be analyzed on the spot – the process usually takes about five minutes. Results will be given directly to the homeowner.

For more information, contact Douglas SWCD at 320-763-3191 - extension 3
